

SMALL BUSINESS AND INFRASTRUCTURE JOBS TAX ACT OF 2010

SMALL BUSINESS AND INFRASTRUCTURE JOBS TAX ACT OF 2010

(House of
Representatives - March 24, 2010)

Mr. DAVIS of Illinois. I want to thank the chairman for yielding.

I note that the State of Illinois has received \$4.853 billion in bonds up through January of this year. Many of those have gone to communities that are represented by individuals who certainly are not described as Democrats. As a matter of fact, they've gone to communities throughout the State.

These bonds are about building schools, roads, hospitals, creating jobs. There is no way under the sun that I could imagine not voting for this bill. It stimulates the economy, it builds jobs, it puts people to work.
